

# APD Forensics Facility

## Summer 2017

Please give a brief description of your duties.	What value do you feel you added to the organization during your internship?	Did this internship meet your expectations? Why or why not?
I observed and helped out in the Ballistics Lab.	I was able to help out with the maintenance of ballistics lab.	Yes, I learned a lot through observing my supervisor while also being able to help out with other tasks.
Would you recommend this internship to another student? Why or why not?	If you could change one thing about your internship experience, what would it be and why?	Please provide any additional information regarding your internship that you feel students should know.
Yes, you receive experience which is difficult for the field of forensics.	I would have tried to suggest a project that I could complete during my internship.	Some days will be slow and others will be very busy and exciting.
