

InReach Continuing Education

Summer 2016

Please give a brief description of your duties.	What value do you feel you added to the organization during your internship?	Did this internship meet your expectations? Why or why not?
My responsibilities were not substantive. I had a great deal of freedom to learn from whomever I wished and shadow whomever I wanted. I did help with some rebranding of client websites and got to supply ideas during meetings.	I was able to provide a new view on some issues. I also feel that as a result of my presence and the aspiration for team member to help me, I was able to create an even more positive environment among the team members.	The internship did meet my expectations. It exceeded them since I was able learn from many more people than I expected.
Would you recommend this internship to another student? Why or why not?	If you could change one thing about your internship experience, what would it be and why?	Please provide any additional information regarding your internship that you feel students should know.
If a student is very proactive and takes initiative to learn and work, I would recommend this internship. If someone is looking to have duties handed to them and will be lazy, I would not recommend it. They would be a poor representation of our school.	I would have sought to create a personal project for myself earlier on.	The company is well organized and full of helpful people.
