

KidWorks Therapy Services

Summer 2016

Please give a brief description of your duties.	What value do you feel you added to the organization during your internship?	Did this internship meet your expectations? Why or why not?
<p>My duties consisted of minor cleaning around the clinic, doing special projects for the therapists, one big site project, and helping the therapists with their therapy sessions.</p>	<p>I feel like I added a lot of positivity and helpfulness to the organization. The therapists got stressed out fairly easily, so I was able to alleviate some stress by helping them with anything they needed to accomplish.</p>	<p>Not particularly. It was a lot of grunt work that I definitely was not expecting.</p>
Would you recommend this internship to another student? Why or why not?	If you could change one thing about your internship experience, what would it be and why?	Please provide any additional information regarding your internship that you feel students should know.
<p>I would recommend this internship if you are ready to do a lot of trivial tasks. Honestly, it was worth it to me because I know how much I was appreciated, but other interns did not feel the same way.</p>	<p>This may sound materialistic, but I do wish I was able to get paid for this internship. I loved getting class credit, but for 160 hours there were definitely days where I wished I could have gotten paid and not have had to have a job on the side.</p>	<p>I think I said everything worth saying in the above questions!</p>
