

True Car, Inc.

Summer 2016

Please give a brief description of your duties.	What value do you feel you added to the organization during your internship?	Did this internship meet your expectations? Why or why not?
My job was to work with data collected by Truecar to build a model which can predict whether or not a user will turn into a buyer.	The project that I was working on was one of the most requested features be customers. In that respect, working on it made me feel like I was adding immense value to the organization.	Yes, this internship met my expectations since I was working on something that clearly added a value to the organization and since I learnt a lot.
Would you recommend this internship to another student? Why or why not?	If you could change one thing about your internship experience, what would it be and why?	Please provide any additional information regarding your internship that you feel students should know.
Yes, I would recommend this internship to another student for you are given opportunity to choose your own project which cannot be said of many other places.	I would have liked to have more clarity about my internship earlier in the internship.	You would be expected to be independent and reach out to people.
