

Rooster Teeth

Spring 2015

Please give a brief description of your duties.	What value do you feel you added to the organization during your internship?	Did this internship meet your expectations? Why or why not?
<p>I was an Intern for the animation department on the production of Red vs. Blue. I mostly wrote programs that lightened the load of animators and staff in their day-today duties.</p>	<p>I think I contributed a fair amount. My work allowed people to do their jobs with much more fluidity and efficiency than before.</p>	<p>Exceeded and beyond. Everyone who works there is awesome and hilarious.</p>
Would you recommend this internship to another student? Why or why not?	If you could change one thing about your internship experience, what would it be and why?	Please provide any additional information regarding your internship that you feel students should know.
<p>Absolutely. They truly want you to have a good experience and learn new things. They gave me anecdotes about the horrible internships they'd had and wanted nothing more than to give me a something to take away.</p>	<p>Nothing really.</p>	<p>If you're not a fan of some kind of 'nerd culture' (i.e. comics, anime, VIDEO GAMES) you might find it slightly harder to fit in. That absolutely isn't to say that you're going to have a bad time without it, but it is in the job description for all of the intern postings Rooster Teeth makes. If you consider yourself a 'nerd' of anything at all you'll be fine. Also you should be familiar with the project you're working on before you go, or at least be familiar with what the company does/is like. They have a series on Youtube called RT Life I recommend.</p>
