

# Transamerica

Spring 2015

Please give a brief description of your duties.	What value do you feel you added to the organization during your internship?	Did this internship meet your expectations? Why or why not?
<p>I was responsible for retrieving, organizing, and analyzing data, understanding policy provisions, explaining policyholder behavior using predictive variables and statistical methods, interpreting results and explaining complicated assumption recommendations to management, and working with other teams to ensure that recommendations are understood and correctly implemented.</p>	<p>I have done jobs that regular full time workers are dealing with.</p>	<p>Yes, this internship was a great experience for me.</p>
Would you recommend this internship to another student? Why or why not?	If you could change one thing about your internship experience, what would it be and why?	Please provide any additional information regarding your internship that you feel students should know.
<p>Yes. It's nice to see how knowledge learned from school can be applied to the real world job.</p>	<p>Study the job description and choose the position that you really want to do.</p>	<p>Learn more about the industry before starting the internship. It will make the first few weeks of the job much easier.</p>
