

# Google

## Summer 2017

Please give a brief description of your duties.	What value do you feel you added to the organization during your internship?	Did this internship meet your expectations? Why or why not?
I was tasked with making tools to help the search team be more efficient.	As part of this organization, I created tools which will be used by about 70 people every day to make their work much faster.	Most internships do not have any impact on the organization, which is what I was expecting. This internship exceeded my expectation since I was able to produce a tool which has significant impact by helping Google employees work on their goal more efficiently.
Would you recommend this internship to another student? Why or why not?	If you could change one thing about your internship experience, what would it be and why?	Please provide any additional information regarding your internship that you feel students should know.
Yes I would. You get to work on meaningful projects and the perks are quite great.	I wish my manager was more available to me.	None
