

HomeAway

Fall 2018

Please give a brief description of your duties.	What value do you feel you added to the organization during your internship?	Did this internship meet your expectations? Why or why not?
<p>My duties and responsibilities consisted of software development for the needs of my team. I drew my tasks from the same task list as my teammates and contributed as an equal teammate to the engineering efforts.</p>	<p>I have contributed significantly to my team's project over the course of this fall semester. I had an instrumental role in the roll-out of a new key feature called "Length of Stay pricing". My efforts directly contributed to the timeliness of this project's completion. My work was an essential component to the completion of the project.</p>	<p>This internship has met and exceed all my expectations. I have worked alongside smart and driven engineers who have challenged me to become a better software engineer. In addition, I was given important tasks that were released to production and is currently used by the business.</p>
Would you recommend this internship to another student? Why or why not?	If you could change one thing about your internship experience, what would it be and why?	Please provide any additional information regarding your internship that you feel students should know.
<p>I would definitely recommend an internship with HomeAway to another student. The quality of the internship program is top-notch, and the projects given to interns are always challenging and of importance.</p>	<p>There was a slight organizational change in the middle of my internship where my team experienced a bit of churn as our direction was re-aligned and teammates were swapped out. I wish there had been some more stability throughout the entire internship, however by the end my team was in a</p>	<p>Overall, this internship was excellent. Not only in terms of engineering quality, but the company culture and demeanor was extremely flexible and accommodating to me as a student.</p>
