

Inspire Family Health

Fall 2018

Please give a brief description of your duties.	What value do you feel you added to the organization during your internship?	Did this internship meet your expectations? Why or why not?
<p>I am a medical assistant for Inspire Family Health, a family medical practice. I not only assist in front office duties such as checking in and out patients, scheduling patients, dealing with insurance referrals, ordering supplies, etc., but I also assist with the back clinical duties such as rooming patients, taking vitals and patient history, administering shots and injections, assisting with minor procedures, stocking rooms, and calling in prescriptions.</p>	<p>I helped lighten the load with the back clinical duties so that the other MAs could focus on filling out lab work, calling patients, and doing other tasks.</p>	<p>Yes, in fact, it exceeded my expectations as I learned more and have done more than I imagined I would.</p>
Would you recommend this internship to another student? Why or why not?	If you could change one thing about your internship experience, what would it be and why?	Please provide any additional information regarding your internship that you feel students should know.
<p>Yes--a pre-health student would gain great experience from being an MA that they normally would not receive until graduate school and after.</p>	<p>I would not change anything besides my hours--working during the evenings was hard for me to balance my school and my job.</p>	<p>Being an MA is the most hands-on patient care experience for pre-PA students seeking patient care hours.</p>
