

RBC Wealth Management

Spring 2018

Please give a brief description of your duties.	What value do you feel you added to the organization during your internship?	Did this internship meet your expectations? Why or why not?
<p>I was in charge of answering client phone calls, putting together and binding client portfolios, creating and editing excel spreadsheets and assisting in any way I can around the office.</p>	<p>I feel that I added some different knowledge to this organization. I am the only math major intern they have ever hired, so I was able to introduce them to different classes I am taking and different perspectives I have about what they do here.</p>	<p>Yes, this internship exceeded my expectations. I felt very welcome here and was always treated with respect and as an equal. They allowed me to ask questions about things I didn't understand and were always receptive to my questions.</p>
Would you recommend this internship to another student? Why or why not?	If you could change one thing about your internship experience, what would it be and why?	Please provide any additional information regarding your internship that you feel students should know.
<p>Yes I would, I think this internship would be a great opportunity for another student, especially someone in McCombs.</p>	<p>I would have liked to have an easier time getting access to the shared drive between the team I'm a part of. I still have trouble getting access to some of the information that they need me to have and I haven't gotten much help getting the access.</p>	<p>I love working here!</p>
