## Summer 2017

Please give a brief description of your duties.	What value do you feel you added to the organization during your internship?	Did this internship meet your expectations? Why or why not?
<p>I was part of Genesis, a team composed 100% of interns and one mentor. We were divided in cells. We all developed internal tools for the company. Some did testing and others did full-stack development. I did full-stack development.</p>	<p>I feel that I accomplished the tasks that i was assigned successfully. We demoed our product to the directors and they were really happy with it.</p>	<p>Yes, I learned a lot.</p>
Would you recommend this internship to another student? Why or why not?	If you could change one thing about your internship experience, what would it be and why?	Please provide any additional information regarding your internship that you feel students should know.
<p>Yes, you will learn a lot and the environment is amazing, it is a great place to work.</p>	<p>I wish I was in a team where I could have more time with my mentor to learn from him/her.</p>	<p>None</p>
